

Growing Older and Wiser Unit

Dear Year 1 Parents,

During the Growing Older and Wiser unit, each student will be required to develop a timeline of their life from birth to 2 years.

They will learn about how they have changed and consider what they will be able to do in the future.

Tomorrow your child will bring home the timeline to complete with you at home. Please arrange some time to help your child to record milestones on their timeline. If possible, provide them with photos to commemorate their milestones.

Where students do not have photos, please prompt them to draw a picture showing what they could do and what they looked like at different times in their life.

All students will have the opportunity to share their timeline to the rest of the class, therefore we ask that your child's completed timeline is returned to school by Friday 13th March

Thanks for your assistance.

The Year 1 team 😊
