

MATHS QUIZ CARDS

Year 4 really enjoy quiz cards—the *multiplication and division program*—because we get to be really independent.

We
determine
what we
need to
work on
using a

Capacity Matrix.
Then we choose
activities to do that
help us achieve
these maths goals.

It's great because we are all
working at different stages. Some
of us have even held our own
workshops to teach our
classmates about a
multiplication or division strategy
that we've mastered.
