Learning with ClickView

All Victorian government primary schools now have access to ClickView through the Department of Education and Training.

Mapped to the Victorian Curriculum F-10, ClickView hosts a wide range of classroom friendly content, from popular films to documentaries and Australian made educational videos. By connecting video directly to the classroom, teachers can improve student engagement and enhance their learning.

All ClickView produced content is developed with subject experts, ensuring it is age appropriate and aligned to the Victorian Curriculum F-10. This means students can easily access high quality videos for classroom tasks, assignments or research, in a safe and secure environment.

How can ClickView support your child's learning?

High-quality resources for learning
ClickView provides a library of video content aligned to the Victorian Curriculum F-10. Students and teachers can confidently access high-quality video resources that have been purpose-made in Melbourne, or resources that have been curated from a selection of pay-TV or free-to-air programs.

Engaging and interactive
Teachers can find, edit and share relevant educational videos with students, including interactive learning tasks, through which teachers can monitor each student's understanding. Students can upload and share their work with teachers and other students to demonstrate their learning.

Access videos anytime, anywhere
Teaching staff can share clips with students to view at home, so students can use class time for quality discussions, higher-order thinking and problem-solving.
Safe and age-appropriate
ClickView resources feature Australian content classifications to help ensure students access age-appropriate materials.

Accessing ClickView

Student eduPass or school login credentials are used for secure access to ClickView. Students' name, year level and school name are collected for learning and teaching, technical support and platform security purposes.

Your school's Acceptable Use Policy will guide appropriate use of the service.
